

Polypropylene Lab Storage Cabinet

TopAir's high quality lab storage cabinet combines an ergonomic design and premium materials.

The cabinet is made of white polypropylene featuring a high level of corrosive resistance.

The cabinet complies with international standards, protecting lab staff from inhaling harmful chemicals and providing Convenient solution, and storage for bottles and cans.

Hood configuration options

- Lab Storage cabinet with fuming duct connection - can be connected to an existing fuming system.
- Lab Storage cabinet with built-in fan & fuming duct connection - an independent unit that channels the airflow outside the building using flexible ducting.
- Lab Storage cabinet with fan & filter system - an independent unit that provides fuming for the Hood interior with no need for ducting/pipes

- Polypropylene structure with high chemical resistance
- Observation windows from hermetically tempered glass
- Door locks
- Ventilation openings at the sides and top of the Hood
- 3 shelves inside the cabinet
- Optional suction fan
